DreaMoments

Professional Brisbane Photography

YOUR PORTRAIT SPECIALIST

DreaMoments makes your portrait photo session very fun and easy. Photographer Greg Tatnell is very friendly has a lot of experience with a few tricks to relax even the most unphotogenic person and get relaxed and natural looks every time. Even for children and your loving family pets. Greg will take many photos and only choose your best to make you shine like a star.

DreaMoments offers many different styles in creating your perfect portrait and understands everyone has different reasons and needs. This many include creating your family identity and values, which can place over your fireplace or the first thing you see as you walk into your house. Motivational success styles to keep you focused on your dreams and goals in life. Children have lots of dreams and allowing them to dress up and have their very own photo in their room on the wall is a very popular way to allow them to create there own identity and

memories as they grow. Greg also loves working with animals owning a few him self and understands they are part of the family too. Many clients use the digital images given on their computer background and on their phone and tablets for something special. Whatever your reason, Greg will work closely with you to achieve what you're looking for.

We recommend you are dressed and prepared on our arrival to get as many photos as possible.
